

450x445x1120mm (LxBxH)

Container capacity / l	50
Container capacity effective / l	35
Operating pressure / bar max.	3
Compressed air connection	1/4"
Output Separating agent	1/2"
Connection water (rinsing line)	1/2"
Power connection / V	24
Weight / kg (empty)	30

Concentrate spray unit for ECO SPRAY spray technology.

- 50 litres capacity
- Stainless steel
- Incl. 10m air hose NW6,3
- Medium pressure adjustable between 0.15-7bar
- Continuous fill level detection
- Fine pressure regulator for separating agent pressure
- Safety valve to protect against inadmissible excessive pressures
- Mobile
- Manual filling
- Strainer in center duct, mesh size = 0.25mm
- Leakage monitoring
- Siemens small control system with indicator light
- Button for error acknowledgment
- Interface with fault message and cycle stop
- Connection for rinsing line to PSM/PSR/Spraying tool
